

CareShield

ANTIMICROBIAL SURFACE PROTECTANT

➤ BENEFITS

- ✓ SURFACE/USER FRIENDLY
- ✓ SHIELDS AND PROTECTS FOR UP TO 12 MONTHS
- ✓ NO FRAGRANCE
- ✓ BEST WHEN USED WITH THE ELECTROSTATIC SPRAY GUN

➤ HOW IT WORKS

When applied with a electrostatic sprayer CareShield will wrap the item in a 360 degree protective coating.

CareShield is effective against a broad range of microorganisms including; C. difficle spores, Hepatitis B, Norovirus and Canine parvovirus.

FULL INTEGRATION

The technology is integrated during the manufacturing process and becomes part of the molecular structure of the product.

TECHNOLOGY AT WORK

The technology penetrates the cell wall of each microbe and inhibits their ability to grow and reproduce.
